A BENCHMARK FOR LONG TYRE LIFE

A rear MICHELIN Commander II can last up to 25,000 miles.

EXCELLENT HANDLING AND STABILITY

MICHELIN Amplified Density Technology: the more rigid high-density casing enhances handling and feedback. The rear tyre's aramid-fibre crown plies combine strength and light weight to ensure excellent stability, even at high speeds. The unique tread pattern facilitates the clearance of water and consequently improves grip on wet roads.
